- 1** Website statistics - see charts on next page. Website visitors were slightly less in 2009 over previous year, but amount of bandwidth increased.
- 2** Since Oct. 2009, there have been 18 Annual Parish Info Sheets submitted (12 online and 7 mailed) from parishes and this info has been updated on associated Convocation webpages. This is out of 92 parishes in the diocese.
- 3** Website updated with new info from 2010 Calendar Handbook, new board members, etc.
- 4** Alabama ECW Google Group updated with new board members email addresses.
- 5** The forwarding for custom ECW email addresses to personal email addresses have been updated.
- 6** An "email campaign" was sent using the Constant Contact application to help publicize the 1st Annual Outreach Summit.
- 7** I have not begun work to get our database in the Constant Contact application updated, but will start on this soon. I will add Convocation fields to this database so that we can begin using this application on the convocation level, if wanted. An example would be for Convocation Coordinator to send email to all in the database that are coded for their convocation to inform them of Convocation meetings in spring and fall.
- 8** If any board member wants info on the website about their convocation, program, event, committee, please send the info to me by email.
- 9** If your email address changes, please let me know so I can update the Alabama ECW Board Google Group and the forwarding for ECW custom email addresses. I also will change it on the website.
